PROFESSIONAL SUMMARY

Computer Science (AI & Machine Learning) student with hands-on experience in Machine Learning, Deep Learning, Data Analytics, and Data Visualization. Skilled in Python, SQL, Power BI, and Scikit-learn with experience developing AI-driven solutions and analytical dashboards. Passionate about applying data-driven approaches to solve real-world problems and seeking opportunities in AI/ML, Data Science, and Data Analytics.

TECHNICAL SKILLS

- Programming Languages : Python, SQL, Java
- Machine Learning: Machine Learning, Deep Learning, Supervised Learning, Unsupervised Learning, NLP
- Libraries: Pandas, NumPy, Matplotlib, Scikit-learn
- Data Analytics: Data Analysis, Exploratory Data Analysis (EDA), Data Visualization
- Tools & Platforms: Power BI, MySQL, Jupyter Notebook, Git, GitHub, Microsoft Excel
- Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management

EDUCATION

- **B. Tech – Computer Science (AI & ML)**
Sphoorthy Engineering College, Hyderabad
Expected Graduation: 2027
CGPA: 8.76
- **Diploma in Engineering**
Mahaveer Institute of Science and Technology
2021 – 2024
CGPA: 9.37
- **SSC (Class X)**
Sri Shanthi Nikethan High School
2021
CGPA: 10.0

RESEARCH PAPER

Reducing Educational Inequality Through Inclusive Access to Quality Education – Presented at National Conference on Sustainable Development (NCSD-2K25), Sphoorthy Engineering College, April 2025.

- Researched factors contributing to educational inequality and sustainable development.
- Proposed solutions to improve access to quality education for all learners.
- Presented research findings at a national-level conference.

PROJECTS

●AI-Based Aircraft Engine Health Monitoring System

Tools: Python, LSTM

- Analyzed aircraft sensor records using LSTM models
- Predicted Remaining Useful Life (RUL) to support predictive maintenance decisions

- **Bird Strike Prediction Using Physics-Informed AI Models**

Tools: Python, FastAPI, Streamlit, Scikit-Learn

- Developed a Physics-Informed AI model to predict bird strike risk using bird characteristics and aircraft velocity.
- Integrated kinetic energy calculations with machine learning techniques to estimate impact severity and support aviation safety analysis.

- **SQL Sales Performance Analysis**

Tools: SQL, MySQL, Excel

- Queried and analyzed transaction records using SQL.
- Generated reports on revenue trends, customer behavior, and product performance.

- **E-Commerce Sales Analytics Dashboard**

Tools: Power BI, Excel, Python

- Analyzed sales records and developed interactive KPI dashboards.
- Identified top-performing products and customer segments through data visualization.

- **Customer Churn Analysis**

Tools: Python, SQL, Power BI

- Analyzed customer datasets to identify churn patterns and retention drivers.
- Built dashboards to visualize churn trends and support business decisions.

- **Market Trend Analysis Using E-Commerce Data**

Tools: Python, Pandas, Matplotlib

- Analyzed e-commerce datasets to identify seasonal sales patterns.
- Created visual reports to generate business insights.

ACHIEVEMENTS

- Best Performer – Swift Fundamentals Workshop (Apple Lab)
- Best Academic Performer – Diploma 2nd & 3rd Year
- 1st Prize – Diploma Final Year Project (SLA 3D Printing)

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 AI Foundations Associate
- Employability Skills Program – Vadhvani Foundation
- Data Platform 2025 Foundations Associate
- Swift Fundamentals Workshop (Apple Lab)
- AI-ML Virtual Internship – EduSkills
- Introduction to Artificial Intelligence

PARTICIPATIONS

- Participant – MSME Ideathon 5.0 (36-Hour Innovation Challenge)
- Participant – Smart India Hackathon (SIH) 2024
- Participant – National Conference on Sustainable Development (NCSD) 2025

LANGUAGES

- English
- Telugu
